

Got Pink Eye?

You may qualify to take part in a clinical research study.

You or your child may qualify if you:

- Have red, itchy, crusty or gooey eye or eyes
- Are aged 1 year or older
- Your symptoms started within the past 4 days

Participation may last for about 8 days and includes at least 3 visits. You will receive study related medication and study-related exams at no cost to you. You will be compensated for your time and travel expenses.

If you are interested in learning more about this study call us today!
